

Is it an alcohol overdose?

Check for **PUBS** signs!

Puking while passed out

Unresponsive to normal attempts to wake

Breathing is slow, noisy, shallow, or has stopped

Skin is blue, cold, or clammy

If you see even one, save a life and call for help!

Information from gordie.org

Off-campus: 911

On-campus: WUPD/EST 314-935-5555

In case of emergency

as a general guideline.

Aim for a limit under 4 drinks in 2 hours

Avoid binge drinking

Never drive impaired. Always use a designated driver who is 100% sober.

What's your

BAC?

(Blood Alcohol Content)
